Co-Sponsored by

Promedica International CME and Cedars-Sinai Medical
Center in conjunction with the California Chapter of
the American College of Cardiology and the California
Chapter of the Society of Thoracic Surgeons

Controversies and Advances in the Tre

PROGRAM DESCRIPTION

The two-day symposium is the eighth in a series of annual programs offering a realistic view of controversial topics and advances in valvular surgery, percutaneous valve repair and replacement, atrial fibrillation, drug eluting stents, carotid surgery and coronary artery disease. A faculty of leaders in the field has been invited to share their knowledge and experiences of complex and controversial cases.

The conference is designed for cardiologists, cardiovascular and thoracic surgeons, interventional cardiologists, perfusionists, ICU nurses, technicians and those involved in the diagnosis, treatment and care of individuals with controversial and complex cases of cardiac disease. The format will consist of sessions focused on treatment options of heart disease. Each session will include faculty presentations along with moderated discussion periods.

PROGRAM EDUCATIONAL OBJECTIVES

Upon completion of this course, participants should be able to:

- + Understand the indications and surgical options for aortic stenosis
- + Evaluate different techniques for left main disease
- + Compare and contrast treatments of atrial fibrillation
- + Evaluate the use of drug eluting stents in coronary artery surgery
- + Compare and contrast techniques for the treatment of aortic regurgitation
- + Measure the benefits and limitations of various minimally invasive techniques and their use in complex cardiac cases
- + Understand the optimal timing and indications for hybrid approaches to heart disease, thereby improving treatment of patients
- + Learn about new developments in atherosclerosis and stem cell research

ABSTRACT SUBMISSION

Submissions of original abstracts are being accepted and will be considered for oral presentation and poster display. It is recommended that abstracts be submitted online at www.promedicacme.com.

Deadline for Abstract Submissions: August 1, 2008

Abstract Categories

- | | | |
|--------------------------------|--------------------------------------|--|
| + Aortic Stenting | + Congenital Heart Disease in Adults | + New Devices: Cardiac Resynchronization, Heart Failure Monitors |
| + Aortic Surgery | + Congestive Heart Failure | + Percutaneous Valve Repair and Replacement |
| + Arrhythmias | + Coronary Surgery | + Stem Cell Therapy |
| + Atherosclerosis | + Drug Eluting Stents | + Valvular Heart Disease |
| + Anti-thrombotic therapy | + Healthcare Policy | + Other |
| + Carotid Stenting and Surgery | + Imaging | |
| + Cell Therapy | + Minimally Invasive Surgery | |

The Eighth in the Series

SPECIAL GUEST

Dana Carvey

Emmy-award winning Dana Carvey has maintained a tremendous career since his early stand-up days in San Francisco. A repertory member of the Saturday Night Live cast for seven seasons, Carvey is world-renowned for his hilarious characters and spot-on impressions.

KEYNOTE SPEAKERS

James T. Dove, MD

Dr. Dove has been actively involved in clinical research throughout his career and was awarded Mastership in the American College of Physicians in 2002. His interests have been focused in coronary artery disease and more recently in the use of an electronic medical record to facilitate quality performance.

Spencer B. King, III, MD

A pioneer in cardiac catheterization and coronary arteriography, Dr. King co-developed the multi-purpose technique of coronary arteriography. He has served as principal investigator or member of the steering committees of 15 national and international clinical trials in cardiology, as well as conducting the first NHLBI trial of coronary angioplasty versus bypass surgery.

Eduardo Marbán, MD, PhD

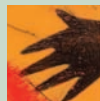

Dr. Marbán is the first Director of the Cedars-Sinai Heart Institute. Among his many achievements, Dr. Marbán founded and directed the Donald W. Reynolds Cardiovascular Clinical Research Center, and was Chief of Cardiology at Johns Hopkins. A pioneering cardiologist who has received many awards for his service, Dr. Marbán also serves as Editor-in-Chief of *Circulation Research*, a leading journal of cardiovascular investigation.

Mark B. McClellan, MD, PhD

As a medical doctor and economist, Dr. McClellan promotes high-quality, innovative and affordable health care. Once commissioner of the Food and Drug Administration and administrator of the Centers for Medicare and Medicaid Services, Dr. McClellan now directs the Engelberg Center for Health Care Reform.

Eric J. Topol, MD

With an international reputation for ground-breaking research, Dr. Topol has expanded our understanding of how genetics can determine an individual's health risks. A key researcher in the discovery of dysfunctional gene variants "MEF2A" and "FLAP," he helped identify them as markedly increasing a person's risk of heart attack.

Benefit Ratio

Alfred A. Bove, MD, PhD

CROSS FIRES

Each panelist presents their position, after which an animator facilitates the group conversation to bring out key points of debate and contention

Drug Eluting Stents

—Efficacy Clearly Outweighs Safety Concern
Gregg W. Stone, MD

—Safety Still a Major Concern
Spencer B. King III, MD

Multi-Vessel Coronary Artery Disease

—Surgical Protagonist
David Taggart, MD, PhD

—PCI Protagonist
Paul S. Teirstein, MD

—Medical Protagonist
Sanjay Kaul, MD, MPH

What is the Best Approach to the Treatment of Mitral Valve Regurgitation?

—Classic Mitral Valve Repair
Alfredo Trento, MD

—Robotic Minimally Invasive
Mitral Valve Repair
W. Randolph Chitwood, Jr., MD

—Percutaneous Edge-to-Edge Repair
Saibal Kar, MD

—Emerging Technologies Will Supersede
Traditional Approaches
William E. Cohn, MD

—Treatment of Mitral Regurgitation:
Putting Things in Perspective
Ted Feldman, MD

Treatment Options for Aortic Stenosis

—Surgical Replacement Via Limited Incision
Gregory P. Fontana, MD

—Percutaneous AVR
John G. Webb, MD, Eberhard Grube, MD,
and Raj Makkar, MD

—Transapical Catheter AVR
Anson Cheung, MD

Treatment of Aortic Regurgitation

—Aortic Valve Repair is the Most
Durable and Safe
Hans-Joachim Schaeffers, MD

—Prosthetic Valve is Simple
and Well-tested
Michael J. Mack, MD

—Transcatheter Valve Option is Imminent
John G. Webb, MD

Renal Artery Stenosis Treatment by Stenting

- A Missed Opportunity?
Robert M. Bersin, MD, MPH
- Overused in Absence of Evidence
Satyendra Giri, MD
- When is Surgery Indicated
Bruce Gewertz, MD

Asymptomatic Carotid Artery Stenosis

- Vascular Surgeon's Perspective
Bruce L. Gewertz, MD
- Interventionist's Perspective
William A. Gray, MD
- Medical Treatment Perspective
Robert M. Bersin, MD, MPH

Treatment of Atrial Fibrillation

- Medical Management Remains the Best Option for Most Patients
C. Thomas Peter, MD
- Primary Ablation Carries Low-risk and Great Benefits
Niv Ad, MD
- Optimal Management Includes Early Surgical Consideration
Randall K. Wolf, MD

DEBATES

Left Main Coronary Artery Disease

- Surgical Protagonist
Michael J. Mack, MD
- PCI Protagonist
Raj Makkar, MD

Does PCI Save Lives?

- Protagonist
Gregg W. Stone, MD
- Antagonist
Sanjay Kaul, MD

Cell-therapy for Myocardial Disease

- A Promising Therapy with Tremendous Potential
Keith Horvath, MD
- Another Hype, to be Soon Forgotten
James S. Forrester, MD

Are We Under Treating Mitral Valve Regurgitation?

- Protagonist
Maurice Enriquez-Sarano, MD
- Antagonist
Robert J. Siegel, MD

Are We Under-treating Aortic Stenosis

- Protagonist
Maurice Enriquez-Sarano, MD
- Antagonist
Robert J. Siegel, MD

Treatment of Atherosclerosis

- LDL is the Major Therapeutic Target
H. Robert Superko, MD
- Time to Think Beyond LDL treatment
P.K. Shah, MD

Coronary Microvascular Disease: Real Disease Entity That Requires Specific Treatment

- Protagonist
C. Noel Bairey Merz, MD
- Antagonist
Sanjay Kaul, MD

PFO Closure for Cryptogenic Stroke

- Protagonist
Mark Reisman, MD
- Antagonist
Jonathan M. Tobis, MD

Sudden Death Treatment

- ICDs are Effective and Underutilized
C. Thomas Peter, MD
- ICD Costs Outweigh Modest Benefits
Sumeet Chugh, MD

Training by Catheter Techniques for Surgeons

- Endovascular Training is Integral to the Future Surgeon
Mathew R. Williams, MD
- Surgeons Should Stick to the Knife and be Good at Using It
David Taggart, MD, PhD

COMPLETE PROGRAM EVALUATIONS

Registration

\$695 Physician/Industry prior to August 1, 2008

\$495 Resident/Nurse/Technician/ACC Member prior to August 1, 2008

\$795 Physician/Industry after August 1, 2008

\$595 Resident/Nurse/Technician/ACC Member after August 1, 2008

\$495 California Chapter, Physician ACC Member

\$195 California Chapter, Cardiac Care ACC Associate

Registration fees include breaks, lunches, and welcome reception, as well as scientific program materials. Please make checks payable to Promedica International CME in U.S. dollars drawn on a U.S. bank. Visa, MasterCard, Discover and American Express credit cards are also accepted. Registrations should be faxed, mailed or submitted online at www.promedicacme.com

To register, please complete the attached form and mail or fax to:

Promedica International CME

2333 State Street, Suite 203, Carlsbad, CA 92008

Hotel Accommodations

Special rates have been made available to program participants at the Beverly Hills Hotel in Beverly Hills, California. Please contact the Reservations Department directly by phone at 800-283-8885 or 310-276-2251. You must state that you are attending Cedars-Sinai Medical Center's **Controversies and Advances in the Treatment of Cardiovascular Disease** meeting in order to receive the special rate of \$450 plus tax for single or double occupancy. All reservations must be received by Monday, August 3, 2008 to ensure this special rate.

Social Event

The following event has been arranged for participants and their companions:

Welcome Reception and Registration

Wednesday, September 3, 2008 6:00 – 8:00 p.m

The Beverly Hills Hotel, Beverly Hills, California

Refunds

Full refund, less \$100 administrative fee, will be given for written cancellations received prior to August 1, 2008. After August 1, 2008 refunds will not be available. All cancellations must be submitted in writing, via facsimile or postal mail.

CME Accreditation And Designation

Promedica International CME is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. Promedica International CME designates this educational activity for a maximum of 16.75 *AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Disclosure Statement

It is the policy of Promedica International CME to ensure fair balance, independence, objectivity and scientific rigor in all its sponsored programs. All faculty members participating in sponsored programs are expected to disclose to the audience any real or apparent conflict-of-interest related to the content of their presentation and any discussions of unlabeled or investigational use of any commercial product of device not yet approved in the United States.
