Controversies & Advances

IN THE TREATMENT OF CARDIOVASCULAR DISEASE

PROGRAM DESCRIPTION

We are proud to be celebrating the sixteenth annual Controversies and Advances in the Treatment of Cardiovascular Disease symposium! The two-day scientific program will offer realistic views on many controversial issues in cardiovascular disease today. Session topics will include atherosclerosis and dyslipidemia, hypertension, an update on MACRA, TAVR, advanced heart disease, clinical electrophysiology, antithrombotic therapies, cardiac imaging, STEMI controversies, and interventional treatment of structural heart disease and coronary artery disease.

Sessions will include a combination of lectures, debates, and roundtable discussions. A faculty of internationally known leaders has been invited to share their knowledge and experiences with complex and controversial cases.

TARGET AUDIENCE

The conference is designed for cardiologists, interventional cardiologists, cardiovascular and thoracic surgeons, perfusionists, nurses, technicians and those involved in the diagnosis, treatment and care of individuals with controversial and complex cases of cardiac disease.

CME ACCREDITATION AND DESIGNATION

Promedica International is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Promedica International designates this live activity for a maximum of 175 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Provider approved by the California Board of Registered Nursing, Provider #8495 for 175 Contact Hours.

Category 1 CEUs for perfusionists will be determined by the American Board of Cardiovascular Perfusion and updated online at www.promedicacme.com.

ABIM MOC ACCREDITATION

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 175 MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

COMMERCIAL SUPPORT

This program is supported in part by educational grants and exhibits from industry, in accordance with the ACCME Standards for Commercial Support. At the time of printing, a complete list of commercial supporters was not available. Appropriate acknowledgement will be given to all supporters in meeting materials onsite.

The Sixteenth in the Series • November 17-18, 2016

FACULTY DISCLOSURE

In accordance with the ACCME Standards for Commercial Support, course directors, planning committees, faculty and all others in control of the educational content of the CME activity must disclose all relevant financial relationships with any commercial interest that they or their spouse/partner may have had within the past 12 months. If an individual refuses to disclose relevant financial relationships, they will be disqualified from being a part of the planning and implementation of this CME activity. Employees of a commercial interest with business lines or products relating to the content of the CME activity will not participate in the planning or any accredited portion of the conference. Disclosure will be made to all participants at the conference location, prior to the educational activity commencement.

LEARNING OBJECTIVES

Upon completion of this course, participants should be able to:

- :: Evaluate the latest advancements and emerging concepts in the treatment of atherosclerosis and dyslipidemia
- :: Compare and contrast new data from the SPRINT and HOPE 3 Trials
- :: Discuss the Medicare Access and CHIP Reauthorization ACT of 2015 (MACRA)
- :: Examine innovations in the treatment of pulmonary hypertension in left heart disease
- :: Evaluate current issues in clinical electrophysiology including silent atrial fibrillation, hypertrophic cardiomyopathy, ischemic ventricular tachycardia, and transvenous defibrillators
- :: Analyze updates in cardiac imaging and discuss the relative roles of CT, MRI, Echo, and Nuclear imaging
- :: Evaluate state-of-the-art STEMI care and controversies including treatment of multivessel disease and advanced cardiogenic shock
- :: Debate the latest advances in interventional cardiology for structural heart disease and coronary artery disease

CALL FOR ABSTRACTS

Submissions of original abstracts are being accepted and will be considered for oral presentation and poster display when submitted online at www.promedicacme.com.

A Moderated Oral Abstract Session will be held Wednesday, November 16, 2016 at the Montage Beverly Hills from 6:00 - 8:00 pm.

Deadline for Abstract Submissions: November 4, 2016

The Sixteenth in the Series - November 17-18, 2016
Marjorie Evelyn Hall - Beverly Hills, California

WHAT THEY'RE SAYING:

- :: Excellent meeting with cutting-edge information!
- :: Topics were relevant to clinical practice and related sessions illuminated some of the most vexing issues faced on a daily basis.
- :: Consistently great conference year after year!
- :: Very helpful analysis and context for recent clinical trials - unusually well done!
- :: The program was outstanding and had practical applications for my daily practice.
