# Introduction

## Course Overview

We hope you will join us to celebrate this milestone anniversary of the “Cardiovascular Interventions” series! Our 30<sup>th</sup> symposium will be a time to focus on the field’s past, present, and future accomplishments. The practice of medicine changes rapidly and the discipline of interventional cardiology changes dramatically each year. These changes in interventional cardiology directly impact patient care and require constant updates to physician knowledge and practices on the latest techniques, technologies, standards of practice, and guidelines for patient care.

The primary purpose of the “30th Annual Cardiovascular Interventions” symposium is to provide the practicing physician and cardiovascular care team with a concentrated exposure to these new developments in interventional cardiology that will positively influence patient outcomes. The 2019 scientific program has been carefully designed by consulting recent key clinical trial data, articles in peer-reviewed scientific journals, physician focus groups, past evaluations, and needs assessments. Participants will learn the latest advances and debates in interventional cardiology. They will return to their practice environment armed with the latest evidence-based, practical information to improve patient care and outcomes.

## CME Accreditation and Designation

Promedica International is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. Promedica International designates this live activity for a maximum of 23 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

## Nursing Contact Hours

Provider approved by the California Board of Registered Nursing, Provider #8495 for 23 Contact Hours.

## Perfusion CEUs

The American Board of Cardiovascular Perfusion (ABCP) has approved a total of 27.6 Category 1 CEUs for perfusionists for Wednesday, October 30 (4.8), Thursday, October 31 (11.4), and Friday, November 1 (11.4).

## Registered Cardiovascular Invasive Specialist CEUs

CCI does not approve CEUs directly, however CCI will accept CEUs that have already been approved by accredited sponsors of the Accreditation Council for Continuing Medical Education (ACCME). RCIS attendees will claim the physician certificate option when completing the online evaluation and can use that certificate to claim CEUs from CCI.

## Conference Highlights

- Live case transmissions from the state-of-the-art Scripps Prebys Cardiovascular Institute
- Plenary lectures from internationally known leaders
- Ample question and answer time with expert faculty
- Attendee receptions with networking opportunities among colleagues
- Diverse satellite symposia and pre-conference seminar on the latest advances

## Target Audience

This course is designed for interventional cardiologists, cardiac surgeons, vascular surgeons, internists, NPs, PAs, nurses, cath lab technicians, perfusionists, registered cardiovascular invasive specialists, radiologic technologists, and those with a special interest in interventional cardiology. No experience in interventional cardiology is required, however a basic understanding of the field is recommended.

## Educational Objectives

After attending this activity, participants should be able to:

- Apply new technical approaches to specific lesion subsets such as bifurcation lesions, left main lesions, chronic total occlusions and saphenous vein graft disease
- Integrate the latest guidelines and practice improvements into the management of myocardial function
- Discuss new techniques under development for transcatheter cardiac valve repair and replacement
- Reduce common catheterization laboratory patient complications using new techniques and technologies
- Critique the latest evidence supporting new cardiac imaging modalities such as IVUS, OCT and FFR guided stent deployment
- Prescribe the appropriate antithrombotic therapies based on the latest data and guidelines

## Radiologic Technologist CE Credits

Category A CE credit is pending approval by the ASRT. Updated information on the determination will be provided online at [www.promedicacme.com](http://www.promedicacme.com) as soon as it is received.

## ABIM MOC Accreditation

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 23 Medical Knowledge MOC points and Patient Safety MOC credit in the American Board of Internal Medicine’s (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider’s responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

## Radiation Safety

This conference fulfills the Title 17 California Code requirement for 4 CE credits in radiation safety for the clinical uses of fluoroscopy.

## Commercial Support

This course is supported, in part, by educational grants from industry, in accordance with the ACCME Standards for Commercial Support. At the time of printing, a complete listing of commercial supporters was not available. Appropriate acknowledgment will be given to all supporters at the time of the educational activity.

## Wednesday, October 30

**Breakfast Symposium**  
7:30 – 8:30 AM in the Fairway Ballroom  
Sponsored by  
*Terumo Interventional Systems, Inc.*

This activity is not included in CME hours  
– **Radial to Peripheral:  
Algorithms for SFA Treatment**  
– **The Economics of Same Day  
Discharge after Peripheral  
and Coronary Intervention:  
Impact of Radial Access**  
– **The Radial Approach  
for Complex Coronary  
Interventions**

**Mid-Morning Symposium**  
9:00 – 10:00 AM in the Fairway Ballroom  
This activity is not included in CME hours  
**New Horizons for Intravenous  
Platelet Inhibition in Complex PCI**

9:00  
**Pre-Treatment with Oral  
Antiplatelets in Elective PCI  
and ACS: What Do the Data  
and Guidelines Tell Us?**  
*Ehtisham Mahmud, MD*

9:15  
**Selecting the Right Patient  
and the Right Lesion for  
Intravenous P2Y12 Inhibition**  
*Duane S. Pinto, MD, MPH*

9:30  
**Rules of the Road for  
Transitioning From Cangrelor  
to the Oral P2Y12**  
*Matthew J. Price, MD*

9:45  
**Discussion**  
*Ehtisham Mahmud, MD*  
*Duane Pinto, MD, MPH*  
*Matthew J. Price, MD*

**Mid-Morning Symposium**  
10:30 – 11:30 AM  
in the Fairway Ballroom

# Conference Location & Hotel Accommodations

## Hotel Information

**Please make your own hotel reservations.**

The Hilton La Jolla Torrey Pines Hotel is located on the internationally famous Torrey Pines Golf Course. Adjacent to Scripps Clinic, 10 minutes north of lovely La Jolla, and 20 minutes from the San Diego airport, the Hilton is close to all the attractions that make San Diego so desirable to visit. With the Pacific Ocean as a backdrop, all rooms command a spectacular view of either the ocean and championship golf course, or a meticulously tended, lush garden.

The Hilton La Jolla Torrey Pines is offering a special group rate of \$245 (plus tax and parking, if required) for meeting attendees through September 25, 2019 or until the block fills, whichever comes first. After that date, reservations will be accepted based on availability.

Please be sure to join us for Wednesday night's dinner symposium!

## "Great Cases in Interventional Cardiology: Complications, Difficult Decisions, Challenging Anatomy, and More!"

This will be an interactive symposium highlighting interesting cases with lively discussion by our expert panelists and conference attendees.

### Submit Your Cases!

This is **your** opportunity to be part of the conference! Have an interesting case that you want to share or get input on? Submit it on DVD for consideration. If selected, you will have the opportunity to present your case to our panel of experts and to your colleagues for discussion. The 3 best cases will be chosen for presentation.

Cases can involve any topic or situation encountered in Interventional Cardiology including:

- Complex PCI
- Clinical Decision Making
- Peripheral Interventions
- Structural Heart Interventions

### Registration Confirmation

A confirmation letter will be emailed to you upon receipt of the conference registration form and payment. If you do not receive the confirmation letter after submission, please contact Promedica International CME.

### Attendee Cancellation Policy

The course tuition is refundable, minus a \$100 processing fee, if your cancellation is received in writing no later than September 15, 2019. Cancellations cannot be accepted over the telephone. Refunds will not be available after September 15, 2019.

### Guest Attendance Policy

All conference activities (including educational sessions, meal functions, exhibit hall, etc.) are exclusively reserved for conference attendees. Non-registered guests (including children, family members, colleagues, etc.) are not allowed in the conference areas. Badges provided at registration are required for entrance into all functions and will be strictly enforced.

### Symposium Materials

All symposium information including the detailed agenda, faculty listing, faculty disclosures, industry support, and course materials will be found on our fully mobile website.

### Cultural and Linguistic Competency

This activity is in compliance with California Assembly Bill 1195 which requires that all CME activities comprising a patient care element include curriculum addressing the topic of cultural and linguistic competency. The intent of this bill is to ensure that health care professionals are able to meet the cultural and linguistic concerns of a diverse patient population through effective and appropriate professional development. Cultural and linguistic competency was incorporated into the planning of this activity.
