

**Thursday, December 2, 2021**

---

**Session III: Controversies in the Treatment of CAD: Expert Views**

Chair: *Raj Makkar, MD, FACC*

**Targeting Plaques, Treating Patients or Tweaking the Population**

*Jagat Narula, MD, PhD, MACC*

**Coronary Physiology Is More Important Than Anatomy to Improve Outcomes**

*William Fearon, MD, FACC*

**Evaluating Coronary Anatomy Is the Best Way to Improve Outcomes**

*David Newby, MD, PhD, FACC*

**Treating Stenosis or Ischemia Does Not Improve Outcomes – Medical Therapy Is King**

*William Boden, MD, FACC, FAHA, FASPC*

**Optimal Management of Left Main Disease in 2021**

*Gregg Stone, MD, FACC*

**A Surgeon's Perspective: Are We Underusing CABG?**

*Joanna Chikwe, MD, FACC*

**Session IV: Structural Heart Disease**

Chair: *Raj Makkar, MD, FACC*

Moderator: *Gregory P. Fontana, MD, FACC*

**The Heart Valve Collaboratory**

*Michael Mack, MD, MACC*

**Durability of Transcatheter Heart Valves – Has the Dust Settled?**

*Michael Reardon, MD, FACC*

**Tricuspid Regurgitation: How Important Is It, How to Quantify and Role of Surgery**

*Jeroen Bax, MD, PhD*

**What's New in Transcatheter Mitral and Tricuspid Valve Replacement?**

*Raj Makkar, MD, FACC*

**Why Is Transcatheter Edge-to-Edge Repair Underutilized in Heart Failure Management? A Discussion**

*Michele Hamilton, MD, Michael Mack, MD, MACC, Raj Makkar, MD, FACC,*

*Jignesh Patel, MD, PhD, FACC, Gregg Stone, MD, FACC*

## **Session V:**

## **Update in Cardiac Imaging**

Chairs:

*Daniel Berman, MD, FACC, and Alan Kwan, MD*

### **Echocardiography in the Diagnosis and Management of Mitral Regurgitation**

*Robert Siegel, MD, FACC*

### **CMR: Pivotal Role in Cardiomyopathy**

*Michael Salerno, MD, PhD, FACC*

### **Pivotal Role of CT in Structural Heart Disease**

*Jonathan Leipsic, MD*

### **Debate: Impact of AI (The Machine) on Cardiac Imaging**

#### **• The Machine Wins**

*Piotr Slomka, PhD, FACC*

#### **• Can't Drive the Machine Without the Doctor**

*David Ouyang, MD, FACC*
